## Football Practice.

Our football prospects are getting brighter every day. About thirty-five men are turning out for practice regularly. Everybody is putting forth his best efforts, and the way Coach Sweely is pumping football into the men is something astonishing.

A part of each practice is given to running signals. Then follows a short scrimmage and a few minutes are then given to practicing on the poor old much abused fellow that hangs at the west end of the field.

Everybody is in good humor with himself over the football prospects. Coach Sweely and Capt. Gill are very hopeful and Manager Thorpe is pushing everything at his end of the line. Thayer is back in school again and has begun practice with the boys.

Everybody is welcome to come out to see the practice every day and make as much noise as he pleases. This is the thing to do. It encourages the boys and helps the team along. Everything that helps the team helps the college, and everything that helps the college helps you. So come out and enjoy yourself and help yourself by doing the right thing for the team.

Captain C. R. Gill.

Coach E. M. Sweeley.

## IN BLOODY BATTLE

The way the Japs. and Russians are doing it, is not a circumstance to the way in which the Sophs. and Freshies. mixed with each other on Rogers field yesterday.

The teams were well matched for, although the Sophs'. line was heavier, the Freshies had a back field composed of heavier and more experienced players. The game throughout was intensely interesting. Both teams showed up some good individual work, but both were lacking in the team work necessary to make the required gain. No sensational plays were made. The longest run was one of forty yards by Grimes. Both teams were forced to punt several times. The game was played mostly in Soph. territory, although neither goal was in danger at any time.

Thayer got a bad cut above the eye

and was forced to leave the game during the first half. Pickrell was also disabled so as to keep him out during the second half.

Grimes played a good game at quarter for the Sophs. Stuart did good work in the line and Pickrell, Cheney and Hubbard made some good gains at half-back. Goldsworthy, Miner and Spalding were the satellites of the Freshman line-up and time after time forced the Soph. line for good gains.

### DETAILS OF THE GAME—1ST HALF.

The Freshmen kicked off to the Sophs. 25-yd. line, where the ball was downed. Sophs. failed to make gain and lost the ball on downs. Freshmen made their gain once, then lost on downs. The ball passed over to the Sophs., who failed to make good and had to punt. The Freshies took the ball and sent Miner

around the right end for eight yards, followed by Spalding around the left end for five more. The Freshmen were then forced back and lost the ball on downs. Sophs. were unable to advance the ball and punted again. Sophs. were penalized for off side and Goldsworthy went through the line twice for five yards each. The ball then passed back and forth so fast for a while that we lost track of it until Miner got hold of it and ran it down the field twenty yards. Spalding then made two runs, gaining five and eight yards. The Freshmen then lost on downs at the center of the field. The ball soon passed back to the Freshmen, who, by a series of line bucks, gained twenty-five yards. Thayer was replaced by Hess. Ball was taken from Freshmen on a foul. Here the Sophs. took a spurt and Cheney gained nine yards, followed by Grimes for twenty more, and time was up for the first half with the score 0 to 0.

### SECOND HALF.

The Sophs. kicked off. Freshies fumbled and lost the ball. Hubbard went
