

ONE HUNDRED AND FIVE GRADUATE INLAND ELECTRIC LINE COMING

Seventy-Two Receive B. S., or B. A.; 18 Civil Engineers and 10 Electricals

One hundred and five young men and women will graduate from the classes of the State College during Commencement Week, eighteen of whom receive degrees in Mathematics and Civil Engineering; nine in Economic Science; seven in Agriculture and Horticulture; four in Domestic Science; ten in Electrical Engineering. Seventy-two will receive B. S., or B. A. Thirteen graduate from the School of Pharmacy; nine from the School of Veterinary Science; seven from the School of Forestry; four from the School of Music.

The graduating students and their major subjects, follow:

Mathematics and Civil Engineering—Andrew O. Abelson, Bert Elson Anderson, George Phelda Barkhuff, John Eben Bishop, James Arlie Davis, Harry Benton Evans, Charles John Filion, Germaeus D. Forgey, Roscoe Rounds Fullerton, Clarence Elon Guernsey, Clarence Leslie Hix, Harold Alexander McLeod, O. G. Murray, William Henry Nalder, William Henry Noble, Dwight Raymond Redman, Waldo Webster Skuse, Lyman Wise Ward.

Horticulture—John Henry Brislawn, Jessie Rupert Hill.

Agriculture—Ralph Hunt, Lee Martin Lampson, George Lawrence, Jacob Welty McCausland, J. Houston McCroskey, Harry Clarence Wilcox. Botany—Leah Emma Lampson, Ada M. Whitaker.

Domestic Economy—Nellie Zeena Holt, Florence Fleener, Lottie E. Jellum, Mabel H. Joyce, Mary Elmina White. Zoology—Benjamin Beattie Mozee. Education: Chloris Anderson, Eva F. Lampson, George Gideon Laver. English—Lora Mae Green, Eleanor Adelyn Henderson, Rosene Edna Kelly, Clyde English Myers, Ivan J. Putman. Modern Languages—

500 Evergreens on College Campus

The most pleasing bit of news that has ever been imparted to students or faculty of the College is that efforts are being made to inaugurate "Evergreen Day" at W. S. C.

This year it is the intention to plant out about five hundred evergreens on the front portion of the campus, and to enlist the co-operation of the entire student body in so doing.

Credit for this idea is due the Department of Horticulture, which has general supervision over the campus. The department will offer the use of teams for hauling the young evergreen trees from the mountains, and without doubt, if the students receive the suggestion with a sufficient degree of enthusiasm, the college authorities would be willing to set aside a day for the planting of the trees.

It would be especially gratifying if each class or student organization were to set out an individual plot of trees, each striving for the best results. Let the care and supervision of the plot in future years belong to the class that planted it. There is plenty of room on the campus, and each of the collegiate and elementary classes, as well as the different schools, could very well set out a little grove to be dedicated to the

student organization that did the planting.

Thus, in future years, when "Evergreen Day" arrives, the president of the Senior, Junior, Sophomore, and Freshmen classes, and the leaders of all other student organizations, would direct the attention of their followers to the needs of the "Sophomore Grove," the "Senior Grove," and so on, including each small grove, or clump on the campus. The classes and organizations could in a very few hours, and in a very efficient manner, give the growing trees the required amount of attention.

If you desire to get enthusiastic over this matter, imagine what the appearance of the campus will be a few years hence when five hundred tall evergreens are growing thereon, and what a commendable spirit there will be in the student body at that time, with each class, and organization to which a grove has been dedicated, carefully watching and caring for the grove, and trying to make it look more beautiful than any other grove.

This sort of rivalry would be a new and worthy kind of "college spirit." The proposed date for "Evergreen Day" is April 22, and if desirable results are to be accomplished, the matter should be taken up by the students assembly and faculty, at once.

MINERS BUSY

Several Will Spend Vacation in Goldfields, Nevada

An important change in the mining course has been made which will affect those who have done practical work previous to this time, and contemplate working in the mines during the future vacations. The old course required all mining students to spend a portion of their vacation between the Junior and Senior years, in the field, under the supervision of the head of the mining department. The change does away with this

Will Probably Extend Road from Colfax to Lewiston via Pullman

Rumors that have not been officially confirmed, but are accepted as well grounded by the majority of people of Pullman and vicinity are that a line of the Spokane & Inland Empire Railway is to be extended from Colfax to Lewiston via Pullman. Houses, barns and trees on the right of way out of Colfax are being removed, and furthermore, it is known that the bonds have been sold with the understanding that the road will be built to Pullman. It is also said, and not officially denied, that the Inland Company has bought the Lewiston-Clarkston bridge, and other property in Clarkston. A large surveying party is now working on Spring Flat between Colfax and Pullman. The route along which the above activity is noted, was some time ago outlined and inspected by Professor O. L. Waller, engineering expert of the college, and officials of the Inland Company. Officials of the road have permitted themselves to be quoted as saying that the line would not miss Pullman when built, but leave the date in uncertainty.

PROTEST JAY

Missionaries Make Erroneous Assertions Concerning W. S. C. Athlete

An effort to prevent Ora Jay, the star young pole vaulter and jumper from Pendleton, from competing on the W. S. C. track team has been made by the Whitman track authorities. In a letter to the faculty committee of the State College the Whitman people put forth the claim that Jay has not enough credits to entitle him to compete in intercollegiate meets.

The local management, however, states that Whitman has received some incorrect information from some source as to Mr. Jay. He has
